

HISTORY OF ISO-MATHEMATICS

I: From the inception of 1978 to the isonumbers of 1993

Main References: R. M. Santilli, *Foundation of Theoretical Mechanics*, Volumes I (1978) and II (1981), Springer-Verlag, Heidelberg, Germany,
<http://www.santilli-foundation.org/docs/Santilli-209.pdf>
<http://www.santilli-foundation.org/docs/santilli-69.pdf>

II: From 1993 to 2013

Main References: R. M. Santilli, *Elements of Hadronic Mechanics*, Volumes I and II
Ukraine Academy of Sciences, Kiev, 1995,
<http://www.santilli-foundation.org/docs/Santilli-300.pdf>
<http://www.santilli-foundation.org/docs/Santilli-301.pdf>

III: From 2013 on

Main Reference: S. Georgiev, *Foundations of the IsoDifferential calculus*, Volume I,
Nova scientific publisher, in press (2014)
<http://www.santilli-foundation.org/docs/isohandbook.pdf>

I. Gandzha and J Kadeisvili , *New Sciences for a New Era* Sankata Printing Press,
Nepal (2011), <http://www.santilli-foundation.org/docs/RMS.pdf>
